cooling areas of the occupant's body not exposed to the air conditioning system

Convenience

- The vehicle can be remotely started from the keyfob and from a smart device such as a phone and a subscription is required to maintain access to the smart device remote start function.

Safety and Security

- The vehicle is equipped with a system that senses, and then prepares, the vehicle and/or occupants, for an impending forward collision.

Technology and Telematics

- Without the need for a manufacturer specific app to be installed on the smart device, the vehicle infotainment system can access and control functions of a smart device physically plugged-into the vehicle.

Comfort

- Ventilated seats offer warm weather comfort by cooling areas of the occupant's body not exposed to the air conditioning system

Convenience

- The vehicle can be remotely started from the keyfob and from a smart device such as a phone and a subscription is required to maintain access to the smart device remote start function.

Safety and Security

- A blind spot detection system will alert the driver when another vehicle is within the warning zone.

Technology and Telematics

- Without the need for a manufacturer specific app to be installed on the smart device, the vehicle infotainment system can access and control functions of a smart device physically plugged-into the vehicle.

The vehicle is equipped with a built-in voice activated navigation system
