A system of this type allows the driver to travel for extended periods of time without providing steering input to the vehicle, however they must be ready to resume control of the vehicle at any point. The vehicle is equipped with a system that senses, and then prepares, the vehicle and/or occupants, for an impending forward collision. The vehicle is equipped with a system that senses, and then prepares, the vehicle and/or occupants, for an impending forward collision.

Technology and Telematics

Without the need for a manufacturer specific app to be installed on the smart device, the vehicle infotainment system can access and control functions of a smart device physically plugged-into the vehicle. AppLink/Apple CarPlay and Android Auto smart device wireless mirroring
