We look forward to earning your business and showing you why so many customers choose Mac Haik Toyota for their next vehicle purchase.

Safety and Security

- An active blind spot system helps prevent the driver from making a lane change when another vehicle is in their blind spot.
- The vehicle is equipped with a system that senses, and then prepares, the vehicle and/or occupants, for an impending forward collision.
- The vehicle constantly monitors the roadway in front of the vehicle and identifies and tracks pedestrians on an interior display. If the system determines a likely impact, it will automatically take

preventative steps to avoid hitting the pedestrian. With this system the driver's hands must remain on the wheel at all times but can be removed briefly (for a few seconds), otherwise the vehicle will prompt the driver to put their hands back on the wheel.

Technology and Telematics

Wireless App-Connect (w/Apple CarPlay, Android Auto & MirrorLink) smart device wireless mirroring

TITAN BLACK, PERFORATED V-TEX LEATHERETTE SEATING SURFACES
