vc_build_feature_name="">Safety and Security</h4><ul class="">vc_build_feature_item_list="">The vehicle is equipped with a system that senses, and then prepares, the vehicle and/or occupants, for an impending forward collision.The vehicle constantly monitors the roadway in front of the vehicle and identifies and tracks pedestrians on an interior display. If the system determines a likely impact, it will automatically take preventative steps to avoid hitting the pedestrian.With this system the driver's hands must remain on the wheel at all

times but can be removed briefly (for a few seconds), otherwise the vehicle will prompt the driver to put their hands back on the wheel.

The vehicle is equipped with a camera that displays an image of the area behind the vehicle on an interior display.

Technology and Telematics

Without the need for a manufacturer specific app to be installed on the smart device, the vehicle infotainment system can access and control functions of a smart device physically plugged-into the vehicle.
