Convenience

Cruise control maintains a preset vehicle speed; automatically increasing or decreasing throttle to maintain that speed.

Powertrain and Mechanical

Variable valve control allows the lift, duration and/or timing of the intake or exhaust valves to be altered while the engine is in operation.

The engine configuration is four cylinders arranged in a straight line.

Safety and Security

The vehicle is equipped with a camera that displays an image of the area behind the vehicle on an interior display.

Brake assist senses panic braking from the

speed of the brake pedal's travel and applies all available power brake boost.
