Mac Haik Toyota has the best selection of pre-owned and new vehicles in Houston! Come by and GET THAT GREAT MAC HAIK FEELING!!! Reviews: * If you're set on a moderately sized luxury SUV, but put off by the stiff ride common on so many luxury cars these days, take the 2014 Lexus RX for a spin. A smooth ride, good handling and a whisper-quiet interior make this the perfect choice, as do the RX's excellent service and resale reputation. Source: KBB.com * Quiet and attractive cabin with high-quality materials; plush ride; comfortable rear seating; generous standard features. Source: Edmunds * Featuring a dynamic and exhilarating design, the Lexus RX is both aggressive and sophisticated. This luxury crossover has automatic on/off headlamps with an auto-off delay. LED daytime running lights and an integrated fog lamp ensure that visibility is as high as possible. The power rear door of the RX offers remote keyless access to the rear storage. 18 x 7.5-in five-spoke alloy wheels provide an added layer of class, on and off the road. The interior of the Lexus RX is highlighted by a lavish ebony wood interior trim juxtaposed with a leather-trimmed steering wheel and shift knob. 10 way power-adjustable seats, which feature lumbar support, come standard with the RX, s

does a reclining, sliding rear seat with 40/20/40 split. The Lexus nine-speaker Premium Sound System with Automatic Sound Levelizer (ASL) and in-dash, single-feed six-disc CD auto-changer will provide the entertainment you need on trips of any size. Not to mention, you can stream music from your phone with the Bluetooth® Audio Profile. The RX is powered by a 3.5 liter, aluminum block V6, with 270 hp at 6,200 RPM, allowing a 0-60 MPH acceleration in 7 seconds. The transmission is an automatic with electronically controlled, intelligence (ECT-i), Sequential Shift and Snow modes. The four-wheel power-assisted discs with four-sensor, four-channel Anti-lock Braking System give you maximum stopping power and control, and every RX performs as a Certified Ultra-Low Emission Vehicle or higher. Lexus cares about safety, and the elaborate 10-airbag system is proof of that. Featuring driver's and front passenger's advanced airbag system (SRS) with front passenger's twin-chamber airbag (SRS). The front-passenger seat is designed to detect whether the seat is occupied by an adult, a child or is vacant, and responds accordingly. Even the structure, with its Impact-dissipating upper interior trim and side-impact door beams, is designed with your safety in mind. Source: The
