One Owner! OTHER NOTABLE FEATURES AND OPTIONS YOU SHOULD KNOW ABOUT:

Convenience

- If the vehicle detects prolonged driver unresponsiveness it will automatically bring the vehicle to a stop and turn on the hazard lights. If equipped, emergency services will be contacted.

Safety and Security

- The vehicle constantly monitors the roadway in front of the vehicle and identifies and tracks pedestrians on an interior display. If the system determines a likely

impact, it will automatically take preventative steps to avoid hitting the pedestrian.

The vehicle is equipped with a system that senses, and then prepares, the vehicle and/or occupants, for an impending forward collision. With this system the driver's hands must remain on the wheel at all times but can be removed briefly (for a few seconds), otherwise the vehicle will prompt the driver to put their hands back on the wheel.

Technology and Telematics

Without the need for a manufacturer specific app to be installed on the smart device, the vehicle infotainment system can access and control functions of a smart device physically plugged-into the vehicle.
