Convenience

The cruise control accesses camera, radar and/or GPS satellite data, to automatically determine if it should slow for a curve in the road ahead.

Safety and Security

With this system the driver's hands must remain on the wheel at all times but can be removed briefly (for a few seconds), otherwise the vehicle will prompt the driver to put their hands back on the wheel.

The vehicle constantly monitors the roadway in front of the vehicle and identifies and tracks pedestrians on an interior display. If the system determines a likely impact, it will automatically take preventative steps to avoid hitting the pedestrian.

Technology and Telematics

Wireless Apple CarPlay/Wireless Android Auto smart device wireless mirroring

Mobile devices can wirelessly connect to the internet through the vehicle's private mobile network.

At Mac Haik Toyota, we're here to **Serve you!** Our staff is 100% dedicated to customer satisfaction and we understand that you need clear, transparent information throughout the car buying process. With our live market pricing philosophy, we offer the right cars at the right price, and the transparency to back it up!
