constantly monitors the roadway in front of the vehicle and identifies and tracks pedestrians on an interior display. If the system determines a likely impact, it will automatically take preventative steps to avoid hitting the pedestrian.

**Technology and Telematics**

- Without the need for a manufacturer specific app to be installed on the smart device, the vehicle infotainment system can access and control functions of a smart device physically plugged-into the vehicle.
- Apple CarPlay/Android Auto smart device wireless mirroring

**Safety and Security**

- With this system the driver's hands must remain on the wheel at all times but can be removed briefly (for a few seconds), otherwise the vehicle will prompt the driver to put their hands back on the wheel.
- With this system the driver's hands must remain on the wheel at all times but can be removed briefly (for a few seconds), otherwise the vehicle will prompt the driver to put their hands back on the wheel.
- The vehicle is equipped with a system that senses, and then prepares, the vehicle and/or occupants, for an impending forward collision.
