Safety and Security

- The vehicle is equipped with forward sensors such as radar, laser, or cameras which can detect a possible collision in left hand turning situations. In left-turn situations the vehicle can warn the driver or automatically apply the brakes if it detects an oncoming vehicle.
- The vehicle constantly monitors the roadway in front of the vehicle and identifies and tracks pedestrians on an interior display. If the system determines a likely impact, it will automatically take preventative steps to avoid hitting the pedestrian.

vehicle constantly monitors the roadway in front of the vehicle and identifies and tracks pedestrians on an interior display. If the system determines a likely impact, it will automatically take preventative steps to avoid hitting the pedestrian.

With the cruise control on, engage the turn-signal and the vehicle will automatically change lanes at the first safe opportunity, without any further input from the driver.

Technology and Telematics

Without the need for a manufacturer specific app to be installed on the smart device, the vehicle infotainment system can access and control functions of a smart device physically plugged-into the vehicle.

MIDNIGHT LAKE BLUE, BLACK, LEATHER SEAT TRIM, BLACK WHEEL LOCKS, CARPET FLOOR MATS

At Mac Haik Toyota, we're here to **Serve you!** Our staff is 100% dedicated to customer satisfaction and we understand that you need clear, transparent information throughout the car buying process.
