Safety and Security

An active blind spot system helps prevent the driver from making a lane change when another vehicle is in their blind spot. The vehicle is equipped with a system that senses, and then prepares, the vehicle and/or occupants, for an impending forward collision. The vehicle constantly monitors the roadway in front of the vehicle and identifies and tracks pedestrians on an interior display. If the system determines a likely impact, it will automatically take preventative steps to avoid hitting the pedestrian. With this system the driver's hands must remain on the wheel at all times but can be removed briefly (for a few seconds), otherwise the vehicle will prompt the driver to put their hands back on the wheel.

Technology and Telematics

Without the need for a manufacturer specific app to be installed on the smart device, the vehicle infotainment system can access and control functions of a smart device physically plugged-into the vehicle.

EBONY BLACK, BLACK, LEATHER SEAT TRIM, SX PRESTIGE PACKAGE, CARPETED FLOOR MATS, HYBRID CARGO NET, FOLDING CARGO TRAY

At Mac Haik Toyota, we're here to Serve you! Our staff is 100% dedicated to customer satisfaction and we understand that you need clear, transparent information throughout the car buying process.
