Safety and Security

- The vehicle is equipped with a camera that displays an image of the area behind the vehicle on an interior display.
- An active blind spot system helps prevent the driver from making a lane change when another vehicle is in their blind spot.
- The vehicle is equipped with a system that senses, and then

prepares, the vehicle and/or occupants, for an impending rear collision.

Brake assist senses panic braking from the speed of the brake pedal's travel and applies all available power brake boost.

Technology and Telematics

Without the need for a manufacturer specific app to be installed on the smart device, the vehicle infotainment system can access and control functions of a smart device physically plugged-into the vehicle.
