Safety and Security

- The vehicle is equipped with a system that senses, and then prepares, the vehicle and/or occupants, for an impending forward collision.
- The vehicle constantly monitors the roadway in front of the vehicle and identifies and tracks pedestrians on an interior display. If the system determines a likely impact, it will automatically take preventative steps to avoid hitting the pedestrian.
- The vehicle is equipped with a camera that displays an image of the area behind the vehicle on an interior display.

Technology and Telematics

- Without the need for a manufacturer specific app to be installed on the smart device, the vehicle infotainment system can access and control functions of a smart device physically plugged-into the vehicle.
- Mobile devices can wirelessly connect to the internet through the vehicle's private mobile network.
