that senses, and then prepares, the vehicle and/or occupants, for an impending forward collision.

The vehicle constantly monitors the roadway in front of the vehicle and identifies and tracks pedestrians on an interior display. If the system determines a likely impact, it will automatically take preventative steps to avoid hitting the pedestrian.

The vehicle is equipped with a camera that displays an image of the area behind the vehicle on an interior display. The camera is equipped with its own washer.

An active blind spot system helps prevent the driver from making a lane change when another vehicle is in their blind spot.

Technology and Telematics

Mobile devices can wirelessly connect to the internet through the vehicle's private mobile network.
